

HFC Operations — Project Status Report

Generated: February 24, 2026 **Source:** Control Panel
(hfcmediainc.com/controlpanel)

MWHL iOS App

Field	Value
Progress	75% toward App Store submission
Status	Active
Last Updated	Feb 23, 2026

Next Steps:

1. **Test slide-up panels on device** — Run build.sh, open each dock icon, verify they slide up as panels and dismiss on drag-down
 2. **Test PowerChat keyboard** — Open PowerChat, tap input field, grey keyboard bar should NOT appear
 3. **Test banner image prefetching** — Open merch store, swipe banners, images should load instantly
 4. **App Store screenshots + metadata** — Take 6.7" and 5.5" screenshots, write App Store description
-

ITV APP

Field	Value
Progress	60% toward Perma-Chat + device testing
Status	Active

Last Updated	Feb 23, 2026
--------------	--------------

Blocker: SSH key not authorized for dreamhost-itv (dh_vh77h7) **Fix:** Paste public key in DreamHost panel or use ssh-copy-id with password

Next Steps:

1. **Authorize SSH key for dreamhost-itv** — Go to DreamHost panel > Users > dh_vh77h7 > SSH Keys, paste the public key
2. **Create /perma-chat/ WordPress page** — Once SSH works, run: `wp post create --post_type=page --post_title="Perma-Chat" --post_status=publish`
3. **Test slide-up panels on device** — Build ITV APP to iPhone, test all dock icons
4. **Test keyboard in PowerChat** — Verify no grey bar on keyboard

Claude Blog Curator

Field	Value
Progress	85% toward Full automation + monetization
Status	Active
Last Updated	Feb 24, 2026

Next Steps:

1. **Monitor native video tweets** — Check @claudevideoz, verify 5 native videos posted per day
2. **Add more search terms** — Go to Claude Blog > Settings, add "AI coding", "Claude API tutorial"
3. **Enable comment moderation** — Add comment support to claude_video post type

Stats: 33 published videos, 354 pending. 33 tweeted (1 native video, 32 text-only). Auto-discovery daily, auto-publisher 4x/day, native video tweets 5x/day.

Content Factory

Field	Value
Progress	90% toward Multi-platform distribution
Status	Active
Last Updated	Feb 23, 2026

Next Steps:

1. **Verify auto-tweeter running smoothly** — SSH to curator, check logs
2. **Add TikTok reposting** — Extend tweet_video.py for TikTok API
3. **Add analytics tracking** — Track tweet impressions via X API

Infrastructure: Mac Mini (Curator) running tweet_video.py 5x/day via launchd. Downloads, re-encodes H.264, uploads natively to X, cleans up.

OpenClaw

Field	Value
Progress	30% toward Public alpha release
Status	Active
Last Updated	Feb 23, 2026

Next Steps:

1. **Define core feature set** — Memory persistence, multi-instance coordination, magic words

2. **Set up GitHub repo** — Create public repo, README, LICENSE (MIT), SOUL.md
 3. **Build configuration system** — Design ~/.openclaw/ directory structure
